Trial

DIAAMOND News

This newsletter celebrates the opening of the DIAAMOND trial!

After a huge amount of work and effort, the trial opened to recruitment at Princess Alexandra Hospital (QLD) in October, 2019. The trial has since opened at three more sites, with governance underway at an additional four sites.

Recruitment

Seven participants have been recruited to the trial from both the newly diagnosed cohort (FIRST) and the relapsed/refractory cohort (NEXT). Thank you to everyone for referring and recruiting potential participants!

Congratulations to Princess Alexandra Hospital for recruiting the first participant to the trial and also enrolling four participants in total.

The trial uses the infrastructure of the Aplastic Anaemia Registry (AAR). Patients who are screened for the trial are also invited to participate in the AAR.

FIRST

Princess Alexandra Hospital – 2
Monash Medical Centre – 1

NEXT

Princess Alexandra Hospital – 2
Box Hill Hospital – 1
Concord Hospital – 1

Updates

DIAAMOND protocol v2.0 and its associated documents were submitted to HREC. The following documents have received HREC approval:

- Protocol v2
- PICFs v2
- Site manual v2
- Case report forms v2
- Correlative studies manual v2
- Pharmacy manual v2.

These will be sent to sites shortly to be added to the SSA or for Governance approval.

We hope you all had a restful break over the festive season, and we look forward to working with you this year!
